Hypertension by Body Mass Index

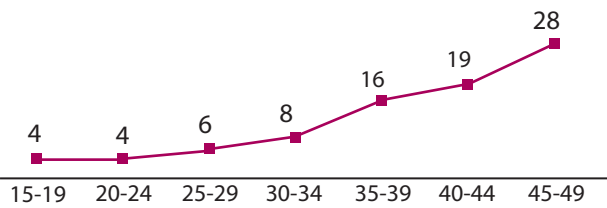

Percent of women age 15-49 with hypertension

The funding for the 2017 TjDHS was provided by the United States Agency for International Development (USAID). Additional funding for the survey was provided by the United Nations Children's Fund (UNICEF) and the United Nations Population Fund (UNFPA). ICF provided technical assistance through The DHS Program, a USAID-funded project providing support and technical assistance in the implementation of population and health surveys in countries worldwide.

Hypertension by Age

Percent of women age 15-49 with hypertension

2017 Tajikistan Demographic and Health Survey (TjDHS)

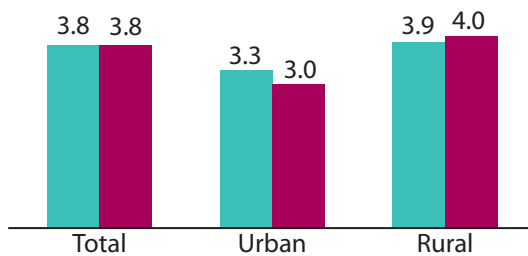

The 2017 Tajikistan Demographic and Health Survey (TjDHS) provides data for monitoring the health situation of the population in Tajikistan. The 2017 TjDHS is the 2nd Demographic and Health Survey conducted in the country. The survey is based on a nationally representative sample. It provides estimates at the national and regional levels, as well as for urban and rural areas.

	Number interviewed	Response rate
Households	7,843	99%
Women 15-49	10,718	99%

Trends in Fertility

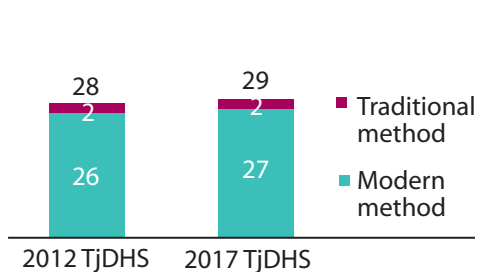

Average number of births per woman for the 3 years before the survey

■ 2012 TjDHS ■ 2017 TjDHS

Trends in Use of Family Planning

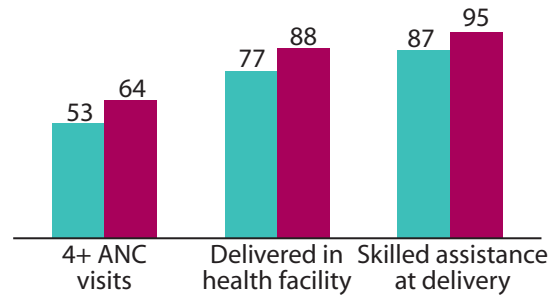

Percent of married women age 15-49 currently using a contraceptive method

Trends in Maternal Health Care

Percent of women 15-49 who had a live birth in the 5 years before the survey

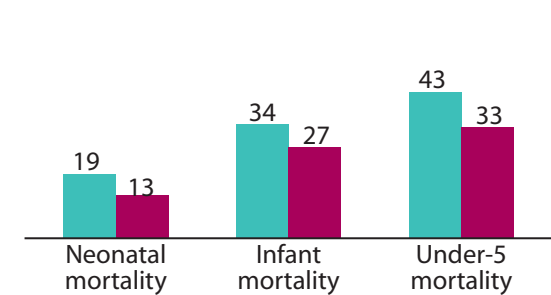

■ 2012 TjDHS ■ 2017 TjDHS

Trends in Childhood Mortality

Deaths per 1,000 live births for the 5-year period before the survey

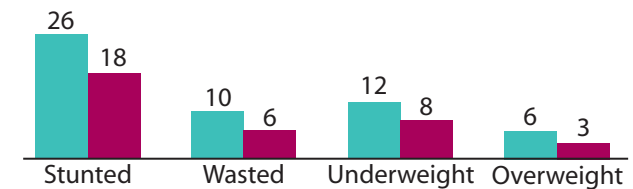

■ 2012 TjDHS ■ 2017 TjDHS

Trends in Children's Nutritional Status

Percent of children under 5

■ 2012 TjDHS ■ 2017 TjDHS

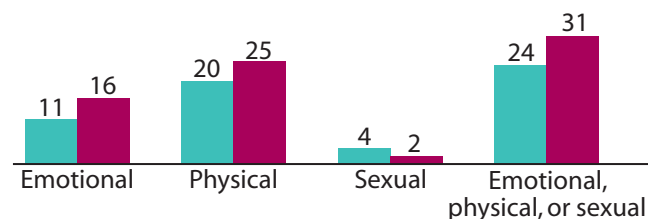

11% of women age 15-49 in Tajikistan have had an **abortion**. This is essentially the same rate as was reported in the 2012 TjDHS.

Trends in Women's Experience of Spousal Violence

Percent of ever-married women age 15-49 who have experienced each type of spousal violence

■ 2012 TjDHS ■ 2017 TjDHS

Trends in Women's Nutritional Status

Percent of women age 15-49

■ 2012 TjDHS ■ 2017 TjDHS
