The 2024 Zambia Demographic and Health Survey (2024 ZDHS) was implemented by the Zambia Statistics Agency (ZamStats) in partnership with the Ministry of Health (MoH), the University Teaching Hospital Virology Laboratory (UTH-VL), the Tropical Diseases Research Centre (TDRC), and the Department of Demography, Population Sciences, Monitoring and Evaluation at the University of Zambia (UNZA). The funding for the 2024 ZDHS was provided by the Government of Zambia; the United States Agency for International Development (USAID); The Global Fund to Fight AIDS, Tuberculosis and Malaria (The Global Fund); the United Nations Children's Fund (UNICEF); the United Nations Population Fund (UNFPA); the World Health Organization (WHO), Johns Hopkins University, and the Gates Foundation. ICF provided technical assistance through The Demographic and Health Surveys Program (DHS), a USAID-funded project providing support and technical assistance in the implementation of population and health surveys in countries worldwide.

2024 Demographic and Health Survey

Factsheet

Zambia

Trends in Maternal Mortality Ratio

Maternal deaths per 100,000 live births

2018 ZDHS

2024 ZDHS

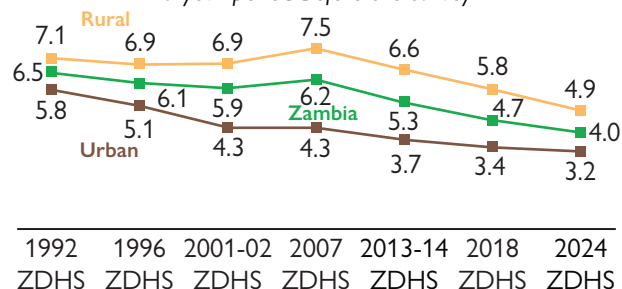

2024 Zambia Demographic and Health Survey

The 2024 ZDHS provides data on basic demographic and health indicators that enable the monitoring of the health status of the population of Zambia. The 2024 ZDHS is the seventh demographic and health survey in Zambia. The survey is based on a nationally representative sample and provides estimates for the national level, urban-rural areas and for each of the 10 provinces.

	Total Number of Respondents	Response Rate
Households	12,808	>99%
Women age 15-49	13,951	97%
Men age 15-59	12,585	94%

Total Fertility Rate Trends by Residence

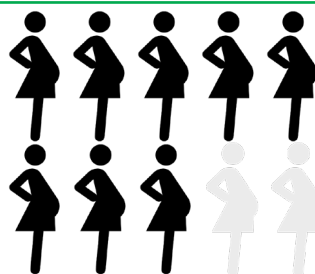

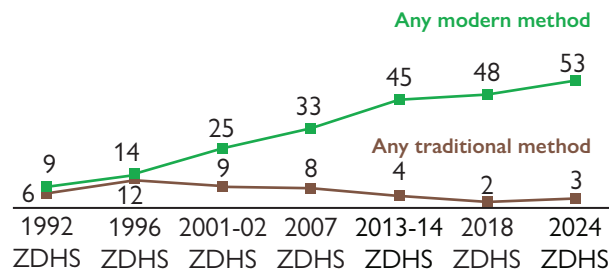

Average number of births per woman for the 3-year period before the survey
